

Higher Visions For Education

Artful Expression and Creativity

Fall 2017

Week 1 Summary

Welcome back HVE!

Students were so excited and energized to be back at HVE this week! We had a wonderful time brushing up on our social skills by listening to each other's summer stories and memories and asking follow up questions. We also introduced the theme of our art quarter and show, 'Reflection', and students reflected on what kind of people they feel they are.

Next week we are very lucky to have Colorado artist Emily VonSwearingen here to begin our multimedia selfportrait project. Students should bring their smart phones and/or a camera next week. Those who do not have one can use the class iPads to take their photos.

If your student and/or family would like to talk with HVE and YPB for the Step Up walk, please register them on our [team page](#) so we know who is coming.
