

Quarter 4, 2017
Week 1 Summary

We had a great first week last week reviewing the upcoming quarter curriculum, and all of the skills and tasks that we will be learning on the iPads. Students also brainstormed additional ideas that they would like to learn on the iPad. They had many great ideas!

Thank you to the students who brought in their iPad agreement signed by their parents/caregiver. If you have not yet done this, please download the form here and send it with your student ASAP. They cannot be given their iPad until this form is handed in.

This week, we are thrilled to have Gilby coming to distribute the iPads. We will discuss ways to care for and appropriately use the iPads, and then will dive right in practicing on the iPads.
