

Quarter 4, 2017 Week 2 Summary

Thank you students for all remembering your iPad agreements! It was a very exciting week having Gilby here to distribute the first round of iPads. The second round will be distributed next week, at which point all students will have their iPads and cases! This week, students set up their fingerprint touch sign on (right thumb), practiced several features on their iPads, and downloaded and reviewed some of the apps we will be using this quarter.

Feel free to email Sally with any questions about logging into the iPad. The passcodes are currently set to [REDACTED]; we will update that next week. Please send your student with a 4-number code that they can remember.

Next week, the remainder of students will get their iPads up and running, and we will finish our discussion on ways to care for and appropriately use the iPads. The Wednesday class will receive their iPad cases next week.

Thank you so much to all of the HVE friends and families for your great attendance and support at our 3rd annual art show. It was a huge success and the students are so appreciative of your support! You can see photos from the event on our [Facebook page](#).
